

NUMEROTATION DES LIGNES DANS LE DOSSIER ROUTES

Bonjour à tous, en parcourant un peu j'ai eu une idée.

Je suis incapable de créer quelque chose, donc si je peux aider autrement

J'ai décidé de créer une base de données des numéros des routes dans le simulateur !!

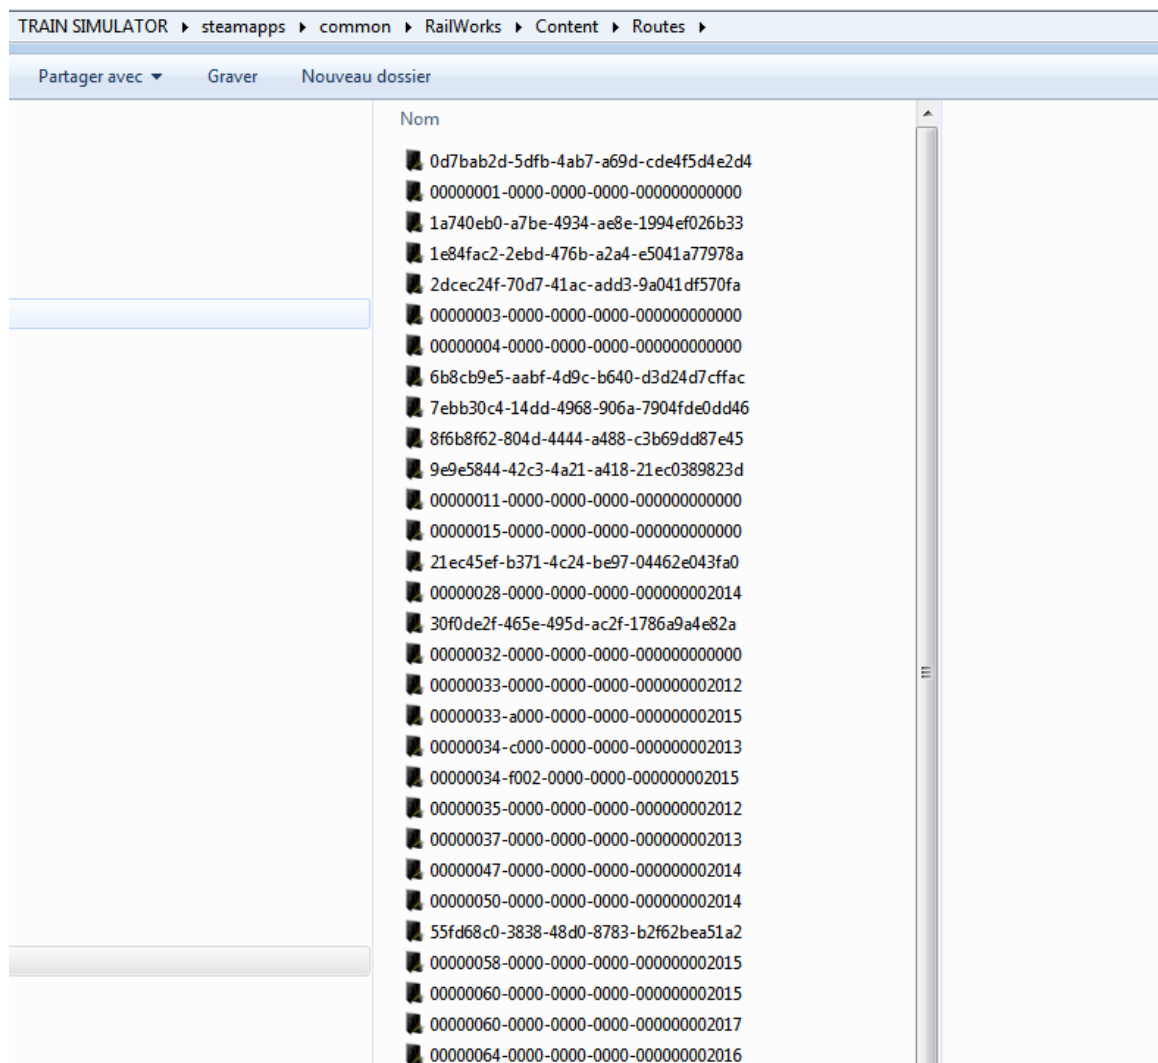

Revenons au sujet !! 😊

Dans le dossier Routes du simulateur il est difficile de s'y retrouver.

Cette liste peut être modifiée à souhait

Vous pouvez retrouver cette liste dans le répertoire de votre jeu :

[Steamapps\common\RailWorks\Content\Routes\](#)

Cette liste a été réalisée avec ce que j'ai trouvé sur le net et la liste des routes sur mon ordinateur.

En espérant que cette liste vous sera utile ☺

Note : Les captures de ce document proviennent de mes promenades dans le simulateur.

Un grand merci à Thalys07 - Simulateur pour leurs contribution à cette base de données
